Part B for

SUBJECT

Removal of meter, from Government land dump and levy of flat rate at Bangalore

K 21021 dt 14.11.46

To the Commr for Labour etc. Comptroller for Ch. Engr for drainage Order. Certain Corrections to be made in Fd Staff etc

Serial No

From the Chief Engineer for Irrigation
747-S dated 16-10-46
Suggests certain Corrections being
effected in the list of Government
buildings at Bangalore on which flat rates
are levied, in accordance with G.O. No
L2105-7/AA 66-43-18 dated 5-8-46
and reports the typographical error

1) In the case of the Engineering
College building and the Workshop, the
flat rate is calculated by the Chief
Engineer on the basis of the consumption
during the three years immediately preceding
the period during which war technicians
were under training
2) A draft Corrigendum is submitted

Removal of meters from Government buildings and levy of flat rate at Bangalore

Adverting to Government Order No L 2105-7/ml 66-45-18 dated 5-8-46, sanctioning the proposals in respect of the above, I have the honour to state that in regard to the Meter Nos 2237 and 2239 installed at the Engineering College premises (vide Item Nos 14 and 16 in the list that accompanied the above Government Order) the average consumption of water and the charges leviable thereon have been noted as 21,830 and 73,280 gallons and Rs 11-0-0 and Rs 36-8-0 respectively But it has been brought to notice by the Principal of the Engineering College, that during the past 3 years the consumption was great, as War technicians under training in the College were housed in the same premises They have since been shifted from there for the normal activities of the College, the consumption of water will be much less The Principal has therefore requested for the reduction of the flat rate The average consumption of water through these two installations was ordered to be calculated on the basis of the consumption during the 3 years immediately preceding the period during which War technicians were under training According to this, the unit of future consumption and the charges thereon will be 9870, 45280 gallons and Rs 5-0-0, 22-8-0 respectively, as reported by the Executive Engineer, Water Supply Division

2 With regard to Meter No 7752 - Boys' Middle School, (Vide Item No 49 in the list) the average consumption of water and the charges thereon have been noted as 3820 gallons and Rs 2-0-0, which should have been 9420 gallons and Rs 4-8-0 respectively This is a typographical error and is regretted

3 I, therefore, request you to be so good as to cause necessary corrections being effected in the list as noted below -

Sl No	Meter No	Name of the Building	Average consumption, etc	Charges Rs A P	Size of Meter
14	2237	Engineering College Workshop	9870	5-0-0	½"
16	2239	Engineering College	45280	22-8-0	1"
49	7752	Boys' Middle School	9420	4-8-0	1"

I have the honour to be,
Sir,
Your most obedient servant,

Chief Engineer for Irrigation.
